

## **AMENDMENTS TO THE CLAIMS**

### **1-19. (Canceled)**

**20. (New)** An ink-printable coated sheet comprising a film of polyolefinic polymer coated with a coating composition comprising a urethane polymer component and an acrylic polymer component, and which coating composition further comprises a plurality of cross linkers, at least one of which is an aziridine or carbodiimide.

**21. (New)** The sheet as claimed in claim 20 in which at least one of said cross linkers is an aziridine.

**22. (New)** The sheet as claimed in claim 20, which additionally comprises at least one of oxirane and isocyanate cross linkers.

**23. (New)** The sheet as claimed in claim 20, in which the coating composition is applied without a primer layer.

**24. (New)** The sheet as claimed in claim 20, which is water resistant, solvent resistant and alcohol resistant.

**25. (New)** A printable label and/or graphic arts display comprising a coated sheet as claimed in claim 20.

**26. (New)** A method of preparing an ink-printable coated sheet which comprises coating a composition comprising a urethane polymer component, an acrylic polymer component and a plurality of cross linkers, at least one of which is an aziridine or carbodiimide, on a film of polyolefinic polymer.
